## Between Ape and Artilect: Conversations with Pioneers of Artificial General Intelligence and Other Transformative Technologies By Ben Goertzel

**Between Ape and Artilect** is edited by noted AI researcher Ben Goertzel, and produced by futurist organization Humanity+. During 2010-12, Dr. Goertzel conducted a series of textual interviews with researchers in various areas of cutting-edge science -- artificial general intelligence, nanotechnology, life extension, neurotechnology, collective intelligence, mind uploading, body modification, neuro-spiritual transformation, and more. These interviews were published online in H+ Magazine, and are here gathered together in a single volume.
