### Editorial Review

From School Library Journal

Gr 1-3--In Bean, full-color photographs clearly show the formation of a root, stem, and shoot, as well as leaves and flowers. Pollination is also discussed briefly. In Frog, terms such as spawn and hibernate are introduced, clear definitions are provided, and some of the predators frogs may encounter are discussed. Each book offers a visual time line along the bottom of each two-page spread. The texts are clear and simple with two sentences per page. Excellent visuals and easy-to-read formats make both titles accessible to beginning readers.
