The history of the United States lives in the words of its presidents-words that heal, inspire and sometimes divide a nation and the world. My Fellow Americans brings to life two centuries of American history, as you read and hear the presidential speeches that defined our nation's most dramatic moments.

My Fellow Americans presents, in text and on two audio CDs, more than 40 of the greatest speeches from American presidents. Former White House chief speechwriter Michael Waldman introduces them, telling their dramatic stories and explaining their impact. In original essays, Presidents Gerald Ford, Jimmy Carter and Bill Clinton describe the talks that influenced them the most. Included are captivating photographs, illustrations and handwritten manuscripts, including:

- Never-before-seen handwritten speech notes used by President Clinton
- The speech, announcing an attack on Cuba, that President Kennedy did not have to give during the Cuban missile crisis
- An actual photo of Lincoln at Gettysburg

And much more...

The accompanying audio CDs let you hear these great speeches as they happened-some recordings are more than 100 years old-and reenact speeches from before the dawn of recorded audio. We hear the voices of every president since Benjamin Harrison. Experience some of our greatest moments, such as "The Only Thing We Have to Fear, Is Fear Itself," "Ask Not What Your Country Can Do For You" and "Mr. Gorbachev, Tear Down This Wall." Hear Lyndon Johnson adopt "We Shall Overcome" for all Americans; John F. Kennedy proclaim "Ich Bin Ein Berliner" at the Berlin Wall; and a fascinating account by a man who saw and heard President Lincoln deliver the Gettysburg Address.

My Fellow Americans presents a fascinating journey through American history that can be shared with your family and friends, whether you're reliving the event, or hearing it together for the first time.

### Editorial Review

From Publishers Weekly

Don't know much about American history? This multimedia collection of the great words of American presidents is for you. While this guide covers the entire American presidency, it is understandably weighted heavily toward the last 75 years. The early speeches-Washington's inaugural words, Lincoln's Gettysburg Address, Woodrow Wilson's WWI speech-are read credibly by actors. But this valuable collection really picks up steam with FDR, when the presidents themselves do the speaking. (Most of the recent presidents, with the exception of Jimmy Carter, have more than one speech included.) There will be those who may wish other speeches were added, but it's hard to quibble with those included: John F. Kennedy's words during the Cuban missile crisis, Lyndon B. Johnson's speech upon assuming the presidency, Ronald Reagan's speech calling on Mikhail Gorbachev to tear down the Berlin Wall. With introductions given for each speech-former Clinton aide Stephanopoulos narrates the CDs-this collection is no less than a primer on U.S. history and the ways issues of government, race and democracy have been viewed during the past 225 years. And there are some surprising moments as well: Richard Nixon's speech to his staff explaining his resignation from the presidency after Watergate shows an emotional side of Nixon rarely seen by the public. 100 b&w illus.

Here is an excellent combination of print and CD: presidential speeches transcribed in the text and captured live on the accompanying pair of discs. Waldman, formerly director of speechwriting under Bill Clinton, selects what he feels are the 43 most important speeches by American presidents from Washington to Bush and supplies context-setting introductions to each of them. Predictably, the speeches of earlier presidents (Lincoln, Wilson, FDR) stand up better as prose, while the efforts of the post-television heads of state read like strings of sound bites. Listening to the CDs, which are introduced by George Stephanopoulos, showcases the personalities and their speaking styles (every president from Grover Cleveland onward is represented). Younger listeners will respond immediately to the magnetism of FDR and JFK, the oratorical stiffness of Nixon, the straight shooting of Teddy Roosevelt. And, of course, beyond the personalities, these 43 speeches encapsulate key moments in American history. Whether as curriculum support or nostalgia, this print-audio package belongs on library shelves. *Ilene Cooper*
