**Ophthalmology E-Book: An Illustrated Colour Text** By Mark Batterbury, Brad Bowling, Conor Murphy

This is a new edition of an innovative and popular introduction to ophthalmology, which in its first edition was awarded the Asher Prize in the Royal Society of Medicine Book Awards. After an introduction to the anatomy of the eye and its examination, the major diseases of the eye and their management are described, followed by a problem-based introduction to clinical decision making. For this third edition, the book has been revised to take account of the many advances in this specialty including the use of monoclonal antibodies in the treatment of 'wet' age-related macular degeneration and new surgical techniques for corneal transplants.

- Presents the core knowledge of ophthalmology and disorders of the eye, with a wealth of friendly features and superb illustrations.
- Relates structure to function in accordance with the approach that most of today's courses take.
- Tackles the common difficulties of diagnosis and management, such as acute red eye, sudden vision loss, and spots before the eyes, in the clinical decision-making section.
- Thoroughly updated to reflect current clinical practice.
- Additional material on macular degeneration.
- New and replacement images to reflect use of new imaging modalities.

## **Editorial Review**

Review

Reviews of previous edition:

This book is a good guide to ophthalmology with a to-the-point attitude...which is in full colour. -- *Mad magazine*, the official journal of Barts and The London Students' Association

This is the book for the ones who are tired of heavy, difficult to read and unorganised medical literature...This 'key elements' frame is good for using both as an introduction to each theme and for summing up/repetition. -- Medical Student, Norwegian University of Science and Technology, Trondheim

I already own several books in the 'Illustrated Colour Text' series, and like the approach to medical specialties...The information given is written in a style easy for the non-specialist to understand, but gives enough detail to give a good understanding of the topic being covered...Overall I found this book to be a useful addition to my medical library, I look forward to using it when I come to study my ophthalmology block and will recommend it to my peers. -- Medical Student, Dundee University, UK

About the Author

Mark Batterbury, Bsc, FRCS(Glasg), FRCOphth, Consultant Ophthalmologists, St Paul's Eye Unit, Royal Liverpool and Broadgreen University Hospitals NHS Trust, Director of Clinical Studies and Honorary Lecturer, Departments of Medicine and Orthoptics, University of Liverpool, Liverpool, UK

## **Users Review**

**From reader reviews:**

**Kara Corbett:**

In this 21st hundred years, people become competitive in each way. By being competitive at this point, people have do something to make all of them survives, being in the middle of the crowded place and notice by surrounding. One thing that at times many people have underestimated it for a while is reading. That's why, by reading a publication your ability to survive increase then having chance to endure than other is high. For you personally who want to start reading some sort of book, we give you this Ophthalmology E-Book: An Illustrated Colour Text book as beginner and daily reading book. Why, because this book is more than just a book.

**Micah Stahlman:**

Exactly why? Because this Ophthalmology E-Book: An Illustrated Colour Text is an unordinary book that the inside of the book waiting for you to snap it but latter it will zap you with the secret this inside. Reading this book close to it was fantastic author who else write the book in such awesome way makes the content on the inside easier to understand, entertaining approach but still convey the meaning fully. So , it is good for you because of not hesitating having this nowadays or you going to regret it. This phenomenal book will give you a lot of benefits than the other book have got such as help improving your ability and your critical

thinking method. So , still want to delay having that book? If I were being you I will go to the guide store hurriedly.

**Linda Gordon:**
