Sistemas Telefônicos (Portuguese Edition) By Paul Jean Etienne Jeszensky

Este livro, inspirado em notas de aula da disciplina de mesmo nome ministrada pelo autor na EPUSP, provê uma ampla visão do campo de telefonia, abrangendo de técnicas tradicionais a informações atualizadas sobre as mais importantes e promissoras tecnologias de ponta. Indicado para estudantes, técnicos e engenheiros da área, este é o único livro disponível em português no mercado que cobre um amplo espectro da telefonia.

O livro traz também um conjunto de anexos com temas muito importantes para a área de Telecomunicações: comunicações digitais, processamento digital de sinais, smart antennas, detecção multiusuário, sistemas 3G, canal de radiopropagação móvel e camadas funcionais. Ao final de cada capítulo, os problemas propostos permitem ao leitor consolidar a teoria apresentada e as respostas/soluções fornecidas orientam a resolução dos demais. Além disso, uma pequena nota histórica finaliza cada capítulo, registrando curiosidades inusitadas da área e prestando um tributo a algumas personalidades não tão conhecidas, destacando seus feitos.

Editorial Review

Users Review

From reader reviews:

Anthony Pisano:

Within other case, little men and women like to read book Sistemas Telefônicos (Portuguese Edition). You can choose the best book if you appreciate reading a book. Given that we know about how is important the book Sistemas Telefônicos (Portuguese Edition). You can add knowledge and of course you can around the world by just a book. Absolutely right, mainly because from book you can know everything! From your country right up until foreign or abroad you can be known. About simple issue until wonderful thing you are able to know that. In this era, you can open a book or perhaps searching by internet unit. It is called e-book. You can utilize it when you feel bored stiff to go to the library. Let's examine.

Charles Anthony:

What do you think about book? It is just for students because they're still students or the item for all people in the world, what best subject for that? Just you can be answered for that question above. Every person has several personality and hobby for each and every other. Don't to be compelled someone or something that they don't would like do that. You must know how great as well as important the book Sistemas Telefônicos (Portuguese Edition). All type of book could you see on many options. You can look for the internet options or other social media.

Helen McCleary:

As a college student exactly feel bored to help reading. If their teacher expected them to go to the library or even make summary for some reserve, they are complained. Just tiny students that has reading's soul or real their pastime. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring and also can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. So , this Sistemas Telefônicos (Portuguese Edition) can make you feel more interested to read.

Thomas Brown:

What is your hobby? Have you heard that question when you got college students? We believe that that problem was given by teacher to their students. Many kinds of hobby, Everybody has different hobby. And you know that little person similar to reading or as studying become their hobby. You should know that

reading is very important and book as to be the issue. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You find good news or update about something by book. Different categories of books that can you take to be your object. One of them is this Sistemas Telefônicos (Portuguese Edition).
