SS-GB By Len Deighton

What if WWII went the other way? In this alternative-history novel, Deighton imagines a chilling world where British Command surrendered to the Nazis in 1941, Churchill has been shot, the King is in the dungeon, and the SS are in Whitehall. In occupied Britain, Scotland Yard conducts business as usual...only under the command of the SS. Detective Inspector Archer is assigned to what he believes is a routine murder case--until SS Standartenführer Huth arrives from Berlin with orders from Himmler himself to supervise the investigation. Soon, Archer finds himself caught in a high level, action-packed espionage battle.

This is a spy story different from any other--one that only Deighton, with his flair for historical research and his narrative genius, could have written.

Editorial Review

About the Author

Bestselling British author Len Deighton is known for his complex, nuanced espionage thrillers, beginning with his very first novel, *The Ipcress File*. Along with his contemporary, John le Carré, who also started his career in the early 1960s, Len Deighton transformed the spy novel by writing about the ways in which espionage can not only change the course of history, but how it can affect the morality and personal lives of the individuals involved.

Users Review

From reader reviews:

Maria Casillas:

Do you have favorite book? When you have, what is your favorite's book? E-book is very important thing for us to be aware of everything in the world. Each guide has different aim or perhaps goal; it means that guide has different type. Some people feel enjoy to spend their a chance to read a book. They may be reading whatever they have because their hobby is definitely reading a book. Consider the person who don't like reading a book? Sometime, particular person feel need book whenever they found difficult problem as well as exercise. Well, probably you'll have this SS-GB.

Tamela Campbell:

The publication untitled SS-GB is the e-book that recommended to you to read. You can see the quality of the guide content that will be shown to an individual. The language that article author use to explained their ideas are easily to understand. The writer was did a lot of exploration when write the book, to ensure the information that they share to you personally is absolutely accurate. You also can get the e-book of SS-GB from the publisher to make you far more enjoy free time.

James Melendez:

Reading can called mind hangout, why? Because if you are reading a book especially book entitled SS-GB your brain will drift away trough every dimension, wandering in each and every aspect that maybe unknown for but surely will become your mind friends. Imaging each and every word written in a e-book then become one type conclusion and explanation that will maybe you never get before. The SS-GB giving you an additional experience more than blown away your mind but also giving you useful details for your better life in this particular era. So now let us present to you the relaxing pattern at this point is your body and mind will probably be pleased when you are finished reading it, like winning a game. Do you want to try this extraordinary shelling out spare time activity?

Danny Padilla:

A number of people said that they feel uninterested when they reading a publication. They are directly felt it when they get a half parts of the book. You can choose the particular book SS-GB to make your reading is interesting. Your own skill of reading expertise is developing when you including reading. Try to choose straightforward book to make you enjoy you just read it and mingle the feeling about book and reading through especially. It is to be very first opinion for you to like to wide open a book and learn it. Beside that the guide SS-GB can to be your friend when you're feel alone and confuse with the information must you're doing of their time.
