Editorial Review

Review

Meenakshi Mukerji is one of today's masters of modular origami, designs comprised of multiple pieces of paper. In her newest book, she brings her ingenuity and creativity to designs made from a single piece of paper. Among the most appealing aspects of this book is the way she subtly manipulates a purely geometric form to fold a flower, a leaf, a butterfly, or card suits. She provides crystal-clear diagrams with lucid text. The book is worth the price of admission all on its own yielding riches in perpetuity!
