Learning ArcGIS for Desktop By Daniela Cristiana Docan

Create, analyze, and map your spatial data with ArcGIS for Desktop

About This Book

- Learn how to use ArcGIS for Desktop to create and manage geographic data, perform vector and raster analysis, design maps, and share your results
- Solve real-world problems and share your valuable results using the powerful instruments of ArcGIS for Desktop
- Step-by-step tutorials cover the main editing, analyzing, and mapping tools in ArcGIS for Desktop

Who This Book Is For

This book is ideal for those who want to learn how to use the most important component of Esri's ArcGIS platform, ArcGIS for Desktop. It would be helpful to have a bit of familiarity with the basic concepts of GIS. Even if you have no prior GIS experience, this book will get you up and running quickly.

What You Will Learn

- Understand the functionality of ArcGIS for Desktop applications
- Explore coordinate reference system concepts and work with different map projections
- Create, populate, and document a file geodatabase
- Manage, create, and edit feature shapes and attributes
- Built automate analysis workflows with ModelBuilder
- Apply basic principles of map design to create good-looking maps
- Analyze raster and three-dimensional data with the Spatial Analyst and 3D Analyst extensions

In Detail

ArcGIS for Desktop is one of the main components of the ESRI ArcGIS platform used to support decision making and solve real-world mapping problems.

Learning ArcGIS for Desktop is a tutorial-based guide that provides a practical experience for those who are interested in start working with ArcGIS.

The first five chapters cover the basic concepts of working with the File Geodatabase, as well as editing and symbolizing geospatial data. Then, the book focuses on planning and performing spatial analysis on vector and raster data using the geoprocessing and modeling tools. Finally, the basic principles of cartography design will be used to create a quality map that presents the information that resulted from the spatial analysis previously performed. To keep you learning throughout the chapters, all exercises have partial and final results stored in the dataset that accompanies the book. Finally, the book offers more than it promises by using the ArcGIS Online component in the tutorials as source of background data and for results sharing

Style and approach

This easy-to-follow guide is full of hands-on exercises that use open and free geospatial datasets. The basic features of the ArcGIS for Desktop are explained in a step-by-step style.

Editorial Review

About the Author

Daniela Cristiana Docan

Daniela Cristiana Docan is currently a lecturer at the Department of Topography and Cadastre at the Faculty of Geodesy in Bucharest, Romania. She obtained her PhD in 2009 from the Technical University of Civil Engineering, Bucharest, with her thesis Contributions to quality improvement of spatial data in GIS. Formerly, she worked at Esri Romania and National Agency for Cadastre and Land Registration (ANCPI). While working for Esri Romania, she trained teams (as an authorized instructor in ArcGIS for Desktop by Esri) from state- and privately-owned companies, such as the Romanian Aeronautical Authority, the Agency of Payments and Intervention for Agriculture (APIA), and the Institute of Hydroelectric Studies and Design. She also trained and assisted the team in charge of quality data control in the Land Parcel Identification System (LPIS) project, in Romania. For the ANCPI, she created the logical and physical data model for the Romanian National Topographic Dataset at a scale of 1:5,000 (TOPRO5) in 2009. She was a member of the workgroup that elaborated TOPRO5 and its metadata technical specifications and the Report on the implementation of the INSPIRE Directive in Romania in 2010. Prior to this book, Daniela worked on ArcGIS for Desktop Cookbook, Packt Publishing, which covers the following topics: designing a file geodatabase schema, constraining the geometry and attribute values of the data, geocoding addresses, working with routes and events, and using spatial ETL tools.

Users Review

From reader reviews:

Ruth Jones:

The book Learning ArcGIS for Desktop can give more knowledge and also the precise product information about everything you want. So why must we leave a good thing like a book Learning ArcGIS for Desktop? Wide variety you have a different opinion about book. But one aim that will book can give many info for us. It is absolutely suitable. Right now, try to closer with the book. Knowledge or information that you take for that, you may give for each other; you could share all of these. Book Learning ArcGIS for Desktop has simple shape but you know: it has great and big function for you. You can search the enormous world by open and read a book. So it is very wonderful.

Ronald Finch:

Playing with family in a very park, coming to see the marine world or hanging out with friends is thing that usually you will have done when you have spare time, subsequently why you don't try matter that really opposite from that. One activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of knowledge. Even you love Learning ArcGIS for Desktop, you could enjoy both. It is great combination right, you still would like to miss it? What kind of hang-out type is it? Oh occur its mind hangout guys. What? Still don't get it, oh come on its known as reading friends.

Luis Vargas:

This Learning ArcGIS for Desktop is great book for you because the content that is certainly full of information for you who have always deal with world and also have to make decision every minute. This specific book reveal it facts accurately using great plan word or we can claim no rambling sentences in it. So if you are read this hurriedly you can have whole information in it. Doesn't mean it only will give you straight forward sentences but tough core information with splendid delivering sentences. Having Learning ArcGIS for Desktop in your hand like getting the world in your arm, information in it is not ridiculous one. We can say that no guide that offer you world within ten or fifteen tiny right but this e-book already do that. So , it is good reading book. Heya Mr. and Mrs. stressful do you still doubt in which?

Tiffany Reyes:

As we know that book is vital thing to add our information for everything. By a publication we can know everything you want. A book is a pair of written, printed, illustrated or blank sheet. Every year seemed to be exactly added. This publication Learning ArcGIS for Desktop was filled regarding science. Spend your free time to add your knowledge about your scientific research competence. Some people has different feel when they reading a book. If you know how big selling point of a book, you can experience enjoy to read a reserve. In the modern era like right now, many ways to get book you wanted.
