Making Sense of Beliefs and Values: Theory, Research, and Practice By Dr. Craig N. Shealy PhD

Social psychologists have studied beliefs and values, and related constructs such as "attitudes" and "prejudice" for decades. But as this innovative and interdisciplinary book convincingly demonstrates, the scientific examination of beliefs and values now influences research and practice across a range of disciplines. Specifically, this edited volume explores the many cutting edge implications and applications of Equilintegration or EI Theory and the Beliefs, Events, and Values Inventory (BEVI). Grounded in twenty years of research and practice, EI Theory seeks to explain the processes by which beliefs, values, and worldviews are acquired and maintained, why their alteration is resisted, and under what circumstances they are modified. Based upon EI Theory, the BEVI is a comprehensive analytic tool which examines how and why we come to see ourselves, others, and the larger world as we do as well as the influence of such processes on multiple aspects of human functioning.

Edited by the developer of the EI model and BEVI method, and informed by contributions from leading U.S. and international scholars, this book features captivating research findings and pioneering practice applications. Research-focused chapters explain how the EI model and BEVI method increase our conceptual sophistication and methodological capacity across a range of areas: Culture, Development, Environment, Gender, Personality, Politics, and Religion. Practice-oriented chapters demonstrate how the BEVI is used in the real world across a range of applied domains: Assessment, Education, Forensics, Leadership, and Psychotherapy. Written in an accessible and engaging manner, this fascinating and timely volume speaks to many of the most pressing issues of our day, by illuminating why we believe what we believe, and demonstrating how our beliefs and values may be assessed, explained, and transformed in the real world.

Key Features:

- Presents an interdisciplinary theoretical model and innovative assessment method derived from two decades of work on the etiology, maintenance, and transformation of beliefs and values

- Features contributions from leading scholars from the U.S. and internationally, demonstrating the many implications and applications of this cutting edge approach for research and practice
- Demonstrates the importance of "making sense of beliefs and values" in addressing many of the most pressing issues of our day

Cultivating the Globally Sustainable Self,

a research-to-practice summit series (www.jmu.edu/summitseries).

Users Review

From reader reviews:

John Carter:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to know everything in the world. Each e-book has different aim or maybe goal; it means that guide has different type. Some people feel enjoy to spend their time for you to read a book. They can be reading whatever they consider because their hobby is usually reading a book. What about the person who don't like examining a book? Sometime, particular person feel need book when they found difficult problem or maybe exercise. Well, probably you will want this *Making Sense of Beliefs and Values: Theory, Research, and Practice*.

Jean Parks:

Do you one of people who can't read enjoyable if the sentence chained within the straightway, hold on guys this particular aren't like that. This *Making Sense of Beliefs and Values: Theory, Research, and Practice* book is readable by means of you who hate those straight word style. You will find the facts here are arrange for enjoyable reading through experience without leaving actually decrease the knowledge that want to deliver to you. The writer involving *Making Sense of Beliefs and Values: Theory, Research, and Practice* content conveys thinking easily to understand by lots of people. The printed and e-book are not different in the content but it just different by means of it. So , do you nevertheless thinking *Making Sense of Beliefs and Values: Theory, Research, and Practice* is not loveable to be your top record reading book?

Kay Newberry:

A lot of people always spent their very own free time to vacation or go to the outside with them loved ones or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you want to try to find a new activity this is look different you can read a new book. It is really fun for you. If you enjoy the book that you simply read you can spent the whole day to reading a e-book. The book *Making Sense of Beliefs and Values: Theory, Research, and Practice* it is very good to read. There are a lot of folks that recommended this book. These were enjoying reading this book. In case you did not have enough space to bring this book you can buy typically the e-book. You can m0ore easily to read this book through your smart phone. The price is not very costly but this book has high quality.

Jeannie Brenner:

Playing with family in a very park, coming to see the ocean world or hanging out with good friends is thing that usually you have done when you have spare time, and then why you don't try thing that really opposite from that. One activity that make you not experience tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love *Making Sense of Beliefs and Values: Theory, Research, and Practice*, you could enjoy both. It is good combination right, you still need to miss it? What kind of hang type is it? Oh seriously its mind hangout men. What? Still don't get it, oh come on its referred to as reading friends.
