Accident and Emergency Medicine (MCQ's...Brainscan) By Gordon S. Laing

This little book has been written primarily for the senior house officer in Accident and Emergency and the registrar pursuing a career in the specialty. I hope also that it will be of interest to medical students. Thanks to the initiative of Professor Miles Irving, Professor of Surgery, University of Manchester, medical students have been taught Accident and Emergency in Hope Hospital since 1974. Many of the answers to the questions here have been elaborated as a result of their enquiring minds. It has been a pleasure to teach them. MCQs should be informative and entertaining and not regarded as a tiresome chore merely because of self assessment scoring. I have omitted the boxes and the "don't know" response. The answers are either true or false. I have attempted to slot the questions into various sections with some degree of sequence, but there is an inevitable overlap particularly with regard to the sections on the unresponsive patient, poisoning and injury. The final section is a selected mixture of Accident and Emergency and I thought "Pot pourri" an appropriate title. I have enjoyed compiling the questions and I hope that both undergraduates and postgraduates will find reading them a painless and worthwhile exercise. Finally my thanks are due to my secretary Eileen Bates for her typing and patience.

Editorial Review

Users Review

From reader reviews:

Ruth Graham:

This Accident and Emergency Medicine (MCQ's...Brainscan) tend to be reliable for you who want to be a successful person, why. The explanation of this Accident and Emergency Medicine (MCQ's...Brainscan) can be one of several great books you must have is actually giving you more than just simple reading through food but feed you with information that probably will shock your prior knowledge. This book is actually handy, you can bring it almost everywhere and whenever your conditions at e-book and printed people. Beside that this Accident and Emergency Medicine (MCQ's...Brainscan) giving you an enormous of experience including rich vocabulary, giving you trial run of critical thinking that we understand it useful in your day pastime. So , let's have it and revel in reading.

Kathryn Glover:

This book untitled Accident and Emergency Medicine (MCQ's...Brainscan) to be one of several books in which best seller in this year, that is because when you read this e-book you can get a lot of benefit onto it. You will easily to buy this kind of book in the book store or you can order it through online. The publisher on this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Cell phone. So there is no reason to your account to past this book from your list.

Phyllis Belser:

Often the book Accident and Emergency Medicine (MCQ's...Brainscan) has a lot of knowledge on it. So when you read this book you can get a lot of gain. The book was authored by the very famous author. The writer makes some research previous to write this book. This book very easy to read you can find the point easily after reading this article book.

Catherine Estey:

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library in order to make summary for some e-book, they are complained. Just tiny students that has reading's soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that reading through is not important, boring in addition to can't see colorful photographs on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Accident and Emergency Medicine (MCQ's...Brainscan) can make you

really feel more interested to read.
