### Never Suck A Dead Man's Hand: Curious Adventures of a CSI By Dana Kollmann

Step past the flashing lights into the true scene of the crime with *Never Suck a Dead Man's Hand*, a frank, unflinching, and unforgettable account of life as a crime scene investigator. Smart, sassy, and blessed--or cursed, depending on your point of view--with a stomach capable of working through the most horrific circumstances, Dana Kollmann details her true, unvarnished experiences as a CSI for the Baltimore County Police Department. Unlike the popular crime dramas proliferating on today's television networks, Kollmann's forensic tales forgo glitz for grit to show what really goes down once the yellow tape goes up.

With an informative, outspoken voice, Kollmann unveils the process and science of crime scene investigation in all its can't-take-your-eyes-away fascination. Whether explaining rigor mortis or the art of fingerprinting a stiff corpse on the side of the road, frantically brushing off a shower of roaches or pushing away a dead body, speeding to a horrific accident scene or cautiously entering a house of death, she shows what it's really like to work in the front lines as a forensics expert.

Vividly detailed and lightened by a disarming gallows humor, Dana Kollmann's true life-and-death experiences bring the sights, smells, and sounds of a crime scene alive as never before. She recounts stories that the cops and the CSI's usually leave on the field, far away from the delicate sensibilities of the average civilian--and forbidden from her family's dinner table. It's a strange world behind the yellow tape, and *Never Suck a Dead Man's Hand* offers a truly eye-opening perspective on the day-to-day life of a CSI.

### Editorial Review

#### From Publishers Weekly

Fans of CSI and Court TV, your book has arrived: a chronicle of the most unusual, macabre and malodorous experiences from 10-plus years of crime scene investigation. Baltimore Police Department CSI Kollman has the enthusiasm, wit (she dedicates the book "to all the bugs I've loved before") and natural storytelling ability to make this memoir sparkle—not easy for a text devoted largely to death and decay. Kollmann aims to educate those with "a Hollywood mentality about a Hell's Kitchen kind of job," and to that end she accentuates glamourless, largely drama-free case-solving. Thankfully, however, there's no lack of adventure: Kollman gets her title from a mishap she suffered while trying to get prints on a bitterly cold night, huffing on the fingers of an accident fatality. At another scene, a rotating ceiling fan flings down grisly bits of a suicide victim's head; at another, maggots are already devouring a body as Kollman tries to get photos. Amid consideration of office politics and her long-suffering family ("literally sickened by my job"), crime-scene anecdotes can get bogged down in details; luckily, Kollman's bright prose, which achieves an approachable, chick-lit tone without sounding flip, makes this squirm-inducing tale highly enjoyable. #### From Booklist

Former Baltimore County Police Department CSI Kollmann tells her story in the perky manner of the *CSI* and *Law and Order* TV franchises, proudly delivering terse commentary and gory detail while puncturing common tube-inspired misconceptions about forensics. "You can't get fingerprints off of rocks," she imparts, and "crime scene investigators don't interview suspects." Furthermore, "luminol doesn't glow blue hours after it's sprayed," and "a miniskirt and heels" aren't the usual raiment of distaff CSIs. Kollmann eventually left the crime lab after realizing she "didn't want the cranberry sauce [at] Thanksgiving . . . to remind [her] of blood clots anymore." This informative, witty treatment of her work accessibly illuminates the reality of forensic science, making it a natural adjunct to true-crime collections. The title, by the way, refers to "the day a dead man's hand ended up in [Kollmann's] mouth"---- just one of the many true-life experiences unlikely to befall TV CSIs that she reports. *Mike Tribby*
