*"Insightful thoughts of some characters during their impending death make it too easy to identify with the horror of what they experienced. By the time I got to the end of some parts, I was out of breath, literally!"*

*children. No one was safe from this man."*

*"As fascinating as it is shocking."*

This book contains the shocking dramatization of real events carried out by the serial killer, Henry Howard Holmes.

America's first documented serial killer, Henry Howard Holmes, holds a dubious and ghastly record that few serial killers in history have surpassed. The 19th century killer is thought to have committed over 200 murders, but, for unexplained reasons, appears to have been overlooked by many true crime enthusiasts. Set partly in the era when "Jack the Ripper" was terrorizing the foggy streets of London with his gruesome slayings in the 19th century, Holmes was committing his nefarious crimes in America, undetected.

Holmes, a handsome, well dressed gentleman with high intelligence, was a murderer and accomplished conman. Charm and trust were his most effective weapons and he wielded them as expertly as any surgeon would a scalpel.

To achieve an easy way to entrap and dispose of his intended victims, Holmes constructed a huge building that when his crimes were revealed, the newspapers of the time named the "Murder Hotel." And this is a fair description as there can be no doubt the building was constructed for the sole purpose of killing his victims and the disposal of their corpses. Though the majority of his victims were women he charmed and ensnared in his murderous grasp, he also murdered men and children.

As the trial judge said when charging the jury responsible for convicting Holmes: *"Truth is stranger than fiction, and if the story is true—(and it was proven to be true)—it is the most wonderful exhibition of the power of mind over mind I have ever seen, and stranger than any novel I have ever read."*

**After 2 years of research and consultation with modern day serial killer profilers, I believe this to be the most accurate dramatized account of America's first documented serial killer, Henry Holmes.**
