**Clinical Case Studies for the Family Nurse Practitioner** From Leslie Neal Boylan

*Clinical Case Studies for the Family Nurse Practitioner* is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care. Composed of more than 70 cases ranging from common to unique, the book compiles years of experience from experts in the field. It is organized chronologically, presenting cases from neonatal to geriatric care in a standard approach built on the SOAP format. This includes differential diagnosis and a series of critical thinking questions ideal for self-assessment or classroom use.

### Editorial Review

#### Review

"This book provides useful and pragmatic case studies that are not overwhelmed by extraneous information frequently found in books like this. The cases are clear, to the point, and varied to provide examples that one would encounter in a typical practice. It is a useful reference for students and new practitioners to help them organize patient care and presentations, as well as their critical thinking skills." (Doody's, 27 January 2012)

#### From the Back Cover

*Clinical Case Studies for the Family Nurse Practitioner* is a key resource for advanced practice nurses and graduate students seeking to test their skills in assessing, diagnosing, and managing cases in family and primary care.
