### Hubris: The Inside Story of Spin, Scandal, and the Selling of the Iraq War

By Michael Isikoff

Filled with news-making revelations that made it a New York Times bestseller, this fast-paced, behind-the-scenes narrative tells the inside story of how the Bush administration used bad intelligence to sell--and then justify--the Iraq war.

Veteran reporters Michael Isikoff and David Corn take the listener behind the scenes at the White House, the CIA, the Pentagon, the State Department, and Congress, where controversial decisions and turf battles were fought in the highest circles of the Bush administration. Hubris connects the dots between George W. Bush's determination to get rid of Saddam Hussein, the role of the neoconservatives in pushing the case for war, and the outing of a CIA officer, which led to the indictment of a top White House official. It's a dramatic page-turner and an intriguing account of conspiracy, backstabbing, ineptitude, and, perhaps most especially, arrogance.

Hubris could be subtitled: "The selling of the 2003 invasion of Iraq to the U.S. public, starring Judith Miller and Valerie Plame." The authors, both investigative journalists, have condensed political information from the media about the war into a readable capsule. Stefan Rudnicki's voice goes so deep one might think it's a recording being played at half-speed. He enunciates each word as though it were as important as all the others, and his unhurried pace allows listeners to concentrate on the audiobook's content. He doesn't attempt to imitate the famous characters, but clever pauses highlight the quotes as the text makes it clear who is speaking. This ideal combination of well-written research with a skilled narrator produces a listening experience much greater than the simple sum of its parts. J.A.H.
