### **Paul's Second Epistle to the Corinthians (The New International Commentary on the New Testament) By Philip Edgcumbe Hughes**

Begun in the late 1940s by an international team of scholars, the New International Commentary on the New Testament (NICNT) series has become recognized by pastors, students, and scholars alike as a critical yet orthodox commentary marked by solid biblical scholarship within the evangelical Protestant tradition. While based on a thorough study of the Greek text, the commentary introductions and expositions contain a minimum of Greek references. The NICNT authors evaluate significant textual problems and take into account the most important exegetical literature. More technical aspects -- such as grammatical, textual, and historical problems -- are dealt with in footnotes, special notes, and appendixes.
