## Genetic Algorithms and Genetic Programming in Computational Finance

From Springer

After a decade of development, genetic algorithms and genetic programming have become a widely accepted toolkit for computational finance. **Genetic Algorithms and Genetic Programming in Computational Finance** is a pioneering volume devoted entirely to a systematic and comprehensive review of this subject. Chapters cover various areas of computational finance, including financial forecasting, trading strategies development, cash flow management, option pricing, portfolio management, volatility modeling, arbitraging, and agent-based simulations of artificial stock markets. Two tutorial chapters are also included to help readers quickly grasp the essence of these tools. Finally, a menu-driven software program, Simple GP, accompanies the volume, which will enable readers without a strong programming background to gain hands-on experience in dealing with much of the technical material introduced in this work.

### **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Lewis Lin:**

In this 21st century, people become competitive in each and every way. By being competitive now, people have to do something to make these survive, being in the middle of typically the crowded place and notice simply by surrounding. One thing that often many people have underestimated it for a while is reading. Yes, by reading a reserve your ability to survive enhance then having chance to stay than other is high. For you personally who want to start reading a book, we give you this Genetic Algorithms and Genetic Programming in Computational Finance book as beginning and daily reading book. Why, because this book is greater than just a book.

##### **Travis Ralls:**

Reading a book tends to be new life style in this particular era globalization. With reading you can get a lot of information that could give you benefit in your life. Having book everyone in this world can share their idea. Ebooks can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or perhaps their experience. Not only the storyline that share in the guides. But also they write about the ability about something that you need example. How to get the good score toefl, or how to teach your children, there are many kinds of book that you can get now. The authors in this world always try to improve their talent in writing, they also doing some investigation before they write for their book. One of them is this Genetic Algorithms and Genetic Programming in Computational Finance.

##### **Margaret Bonner:**

That e-book can make you to feel relax. This book Genetic Algorithms and Genetic Programming in Computational Finance was vibrant and of course has pictures on the website. As we know that book Genetic Algorithms and Genetic Programming in Computational Finance has many kinds or category. Start from kids until adolescents. For example Naruto or Detective Conan you can read and believe you are the character on there. So, not at all of book tend to be make you bored, any it offers up you feel happy, fun and relax. Try to choose the best book in your case and try to like reading in which.

##### **Jeffrey Price:**

As a student exactly feel bored to reading. If their teacher expected them to go to the library or make summary for some reserve, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the educator want, like asked to the library. They go to at this time there but

nothing reading really. Any students feel that studying is not important, boring as well as can't see colorful pics on there. Yeah, it is being complicated. Book is very important in your case. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Genetic Algorithms and Genetic Programming in Computational Finance can make you experience more interested to read.
