Homo Deus: A Brief History of Tomorrow By Yuval Noah Harari

Yuval Noah Harari, author of the best-selling *Sapiens: A Brief History of Humankind*, envisions a not-too-distant world in which we face a new set of challenges. Now, in *Homo Deus*, he examines our future with his trademark blend of science, history, philosophy and every discipline in between.

Homo Deus explores the projects, dreams and nightmares that will shape the 21st century - from overcoming death to creating artificial life. It asks the fundamental questions: where do we go from here? And how will we protect this fragile world from our own destructive powers?

This is the next stage of evolution. This is *Homo Deus*. War is obsolete. You are more likely to commit suicide than be killed in conflict. Famine is disappearing. You are at more risk of obesity than starvation. Death is just a technical problem. Equality is out - but immortality is in. What does our future hold?
