Editorial Review

From the Author

Chemistry SEEMS like an intimidating topic for a child age 4 to learn about..however, this is not the case! Chemistry: The Atom and Elements breaks down complex topics into simple tasty morsels to enjoy. Learn about the structure of the atom, to the periodic table of elements. Amaze your friends when your kiddo is talking about how Lithium is found in medicine and batteries and Carbon is found in all living things. Make learning ENJOYABLE with the Super Smart Science Series!

From the Back Cover

Bold illustrations and elementary text teach young readers the basics of Chemistry. Sound-it-Out sections aid in pronunciation of atomic vocabulary and chemistry-related words.

A complex topic is made simple to create a solid foundation of science in young minds.

Coming next in the Super Smart Science Series:

Neurology: The Amazing Central Nervous System

Astronomy: The Solar System

Anatomy & Physiology: Part 1

Anatomy & Physiology: Part 2

AND MORE!

Inside this book:

Atoms, Protons, Neutrons, Electrons, The Periodic Table of Elements, Atomic Number, Symbol and Structure, Lithium, Carbon, Helium, Sodium, Neon, Oxygen.

Learn the vocabulary of a genius at a very young age!

About the Author

April Chloe Terrazas is a creative scientist! She received her Bachelor's in Science from The University of Texas at Austin and has since launched **Crazy Brainz Publishing**, which produces the Super Smart Science Series, the Super Smart Language Series, the Super Smart City Series and the Super Smart History Series, along with other single titles for children and classrooms.

April visits schools across the US and inspires elementary aged children to learn more about the sciences as well as sparking their interest in writing as a hobby or future profession!

She can be contacted for School Presentations at AprilChloe@Crazy-Brainz.com.

April currently lives in downtown Austin, Texas.

Users Review

From reader reviews:

Joe Vizcarra:

In this 21st hundred years, people become competitive in most way. By being competitive today, people have do something to make these people survives, being in the middle of the actual crowded place and notice by simply surrounding. One thing that often many people have underestimated the idea for a while is

reading. Yep, by reading a publication your ability to survive enhance then having chance to stand than other is high. For yourself who want to start reading some sort of book, we give you this particular Chemistry: The Atom and Elements (Super Smart Science Series) book as starter and daily reading reserve. Why, because this book is usually more than just a book.

Shawn Jones:

Exactly why? Because this Chemistry: The Atom and Elements (Super Smart Science Series) is an unordinary book that the inside of the publication waiting for you to snap the item but latter it will zap you with the secret this inside. Reading this book beside it was fantastic author who all write the book in such amazing way makes the content on the inside easier to understand, entertaining approach but still convey the meaning thoroughly. So , it is good for you for not hesitating having this anymore or you going to regret it. This unique book will give you a lot of rewards than the other book have such as help improving your proficiency and your critical thinking method. So , still want to delay having that book? If I have been you I will go to the book store hurriedly.

Ray Chung:

You may get this Chemistry: The Atom and Elements (Super Smart Science Series) by look at the bookstore or Mall. Just simply viewing or reviewing it might to be your solve problem if you get difficulties for the knowledge. Kinds of this guide are various. Not only by written or printed but additionally can you enjoy this book simply by e-book. In the modern era similar to now, you just looking from your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your guide. It is most important to arrange you to ultimately make your knowledge are still up-date. Let's try to choose suitable ways for you.

Jason Rickman:

As a university student exactly feel bored to reading. If their teacher expected them to go to the library or even make summary for some guide, they are complained. Just minor students that has reading's soul or real their pastime. They just do what the trainer want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that reading through is not important, boring as well as can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important in your case. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this Chemistry: The Atom and Elements (Super Smart Science Series) can make you feel more interested to read.
