Editorial Review

Review

“All the essays provide a complex but readable text, backed by massive scholarship, meticulously documented in the notes at their end. ... the essays in Fictions of Knowledge offer rich and complex investigations of the fascinating world of knowledge in its varied manifestations in literary and non-literary texts, and should be of interest to all who are interested in meaningful connections between the two.” (Tej N. Dhar, *The European Legacy*, Vol. 20 (1), October, 2015)
