Editorial Review

Review

"For those with a taste for mathematical elegance and an interest in the full array of approaches available for modeling populations with complex life cycles, this book is a must."--Larry Barnthouse, *SETAC Globe*

"Both the scope of issues and the means by which they are exposed show the author's desire to create a book that might be interesting and useful not only for the beginner, but for the expert too. Hal Caswell has succeeded remarkably in doing both."--Dmitrii O. Logofet, *Ecological Modelling*

"To say that the extent of material covered in this book is impressive is an understatement. If your research endeavors include population biology, or you teach a course in population biology, you need this text."--Floyd W. Weckerly, *Natural Resource Modeling*

About the Author

Caswell is a Senior Scientist in the Biology Department of the Woods Hole Oceanographic Institution, where he holds the Robert W. Morse Chair for Excellence in Oceanography.

Users Review
