Editorial Review

From [Booklist](#)

Walt Disney's animation strove to duplicate reality, but Tex Avery's steered clear of the limitations of lifelike action, and today's cartoons owe far more to Avery's over-the-top style than to Disney's staidness. Since his 1980 death, Avery has been getting his belated critical due, culminating in this lavish art book. Avery was instrumental in developing Bugs Bunny and the other Warner Brothers cartoon stars, but this retrospective focuses on his artistic pinnacle at MGM in the 1940s and 1950s. There, his vivid comic imagination flowered in maniacally paced masterpieces full of wild gags and zany characters. Welcomely light on text--though Canemaker's commentary is informed and insightful--the volume is loaded with well-reproduced animation cels, storyboards, and other artwork. So classy a tribute to an anarchic, rowdy artist like Avery may seem somehow inappropriate, but with producers of crude made-for-TV-cartoons like Hanna-Barbera getting coffee-table treatment these days, heck, Avery deserves a banquet-table tome. *Gordon Flagg*

Users Review

From reader reviews:

James Stover:

This Tex Avery: The Mgm Years, 1942-1955 are usually reliable for you who want to be a successful person, why. The reason why of this Tex Avery: The Mgm Years, 1942-1955 can be among the great books you must have is usually giving you more than just simple reading through food but feed anyone with information that maybe will shock your preceding knowledge.
