Paul and Jesus: How the Apostle Transformed Christianity By James D. Tabor

In this “compulsively readable exploration of the tangled world of Christian origins” (*Publishers Weekly*), religious historian James Tabor illuminates the earliest years of Jesus’ teachings before Paul shaped them into the religion we know today.

This fascinating examination of the earliest years of Christianity reveals how the man we call St. Paul shaped Christianity as we know it today.

Historians know almost nothing about the two decades following the crucifixion of Jesus, when his followers regrouped and began to spread his message. During this time Paul joined the movement and began to preach to the gentiles. Using the oldest Christian documents that we have—the letters of Paul—as well as other early Christian sources, historian and scholar James Tabor reconstructs the origins of Christianity. Tabor shows how Paul separated himself from Peter and James to introduce his own version of Christianity, which would continue to develop independently of the message that Jesus, James, and Peter preached.

Paul and Jesus illuminates the fascinating period of history when Christianity was born out of Judaism.

Editorial Review

From Booklist

Starred Review There have been a number of books written about Paul and his relationship to the apostles; to James, the brother of Jesus; and to the early Christian community in Jerusalem. But Tabor, a professor of religion, does a particularly fine job of explaining Paul's unique view of Jesus and how he originated a gospel that had almost nothing to do with the life of Jesus, nor the messianic message as it was understood by Jesus' first followers. Tabor contends that Paul's letters—Corinthians and Romans, especially—are the oldest biblical documents we have dating to Jesus' time; the Gospels and even the Acts of the Apostles came later. Within this time line, it is possible to trace Paul's thinking and to come to an understanding of both Paul's gospel and the schism that developed between Paul and Jesus' apostles. Tabor does very little speculating, keeping his focus on the texts and placing them within the context of first-century Judaism and early Christianity. The crisp, clear writing gives readers much to consider—especially the fact that it is a Pauline Christianity that most Christians practice today. Tabor writes in the preface that he has spent much of his adult life studying early Christianity in general and Paul in particular. The depth of his scholarship shows, but he also makes this an enjoyable read for those who want to know more about one of history's greatest mysteries. --Ilene Cooper

Review

“James Tabor is a meticulous historian who carefully and convincingly lays out the actual Jewish theology of earliest Christianity which lies shrouded in the New Testament. . . . Tabor’s thorough yet succinct writing style brings a welcome new clarity to our understanding of the development of Christianity.” (The Rev. Jeffrey J. Bütz, S.T.M., adjunct professor of Religious Studies, Penn State University, and author of *The Brother of Jesus and the Lost Teachings of Christianity*)

“Tabor does a particularly fine job of explaining Paul’s unique view of Jesus. . . . The crisp, clear writing gives readers much to consider—especially the fact that it is a Pauline Christianity that most Christians practice today. . . . The depth of his scholarship shows, but he also makes this an enjoyable read for those who want to know more about one of history’s great mysteries.” (*Booklist (starred review)*)

“A fresh, imaginative and insightful treatment of the original years of the Christian faith. It is not as we have been taught through the centuries. It is infinitely more complex and infinitely more exciting. James Tabor makes this clear.” (John Shelby Spong, author of *Re-Claiming the Bible for a Non-Religious World*)

“This superb, well written book carefully shows just how different Paul’s religion was from that of Jesus and his first followers. . . . A fascinating book, packed with illuminating insights. Highly recommended.” (Barrie Wilson, Ph.D., Professor, Humanities and Religious Studies, York University, and author of *How Jesus Became Christian*)

“In this compulsively readable exploration of the tangled world of Christian origins, Tabor vividly recreates the frenetic and fraught attempts by the earliest followers of Jesus to maintain his teachings and keep his memory alive. . . . Although Paul has long been acknowledged as the founder of Christianity, Tabor weaves a fascinating story out of close readings of Paul’s letters and the book of Acts, which contains an idealized history of the early movement as well as Paul’s earliest activities on behalf of his teachings, and compellingly illustrates the ways that Christianity is Paul and Paul is Christianity.” (*Publishers Weekly*)

“*Paul and Jesus* is overdue, and stands as one of the few books willing to push back assumptions...Digging beneath the acceptable, scholars like Tabor...break through assumptions — even the sacred ones — and give rise to new perspectives and stories.” (Huffington Post)
