**Sunrise (Ashfall Trilogy Book 3)** By Mike Mullin

The Yellowstone supervolcano nearly wiped out the human race. Now, almost a year after the eruption, the survivors seem determined to finish the job. Communities wage war on each other, gangs of cannibals roam the countryside, and what little government survived the eruption has collapsed completely. The ham radio has gone silent. Sickness, cold, and starvation are the survivors' constant companions.

When it becomes apparent that their home is no longer safe and adults are not facing the stark realities, Alex and Darla must create a community that can survive the ongoing disaster, an almost impossible task requiring even more guts and more smarts than ever—and unthinkable sacrifice. If they fail . . . they, their loved ones, and the few remaining survivors will perish.

This epic finale has the heart of **Ashfall**, the action of **Ashen Winter**, and a depth all its own, examining questions of responsibility and bravery, civilization and society, illuminated by the story of an unshakable love that transcends a post-apocalyptic world and even life itself.

## Editorial Review

From School Library Journal

Gr 9 Up—Alex and Darla are still together and still fighting for survival in a postapocalyptic America in the third and, sadly, last book of this trilogy. Following a cataclysmic volcanic eruption and a devastating plunge into an ice-age, the teens have established a core group of survivors. Darla, with her gift for engineering, has cobbled together greenhouses, and the additional food and shelter have attracted both potential friends and enemies. In spite of his youth, Alex has developed into a charismatic leader but lacks the support of the older members of the community. Living on the knife-edge of extinction has taken its toll on the pair physically and emotionally, and enemies from within and without besiege them relentlessly. Themes of cannibalism, torture, sexuality, death, and emotional anguish may distress some readers, but more mature teens (and many adults) will find this series a worthy addition to the postapocalyptic literary pantheon.—Jane Henriksen Baird, Anchorage Public Library, AK

From [Booklist](#)

Eleven months after a supervolcanic eruption, 16-year-old Alex finds himself mayor of a newly formed town called Speranta. Despite his age and the fact that he is dealing with shrinking food supplies and a never-ending winter, Alex must establish himself as a leader. There are graphic moments in this conclusion to the Ashfall trilogy, though fewer than in the previous entries, as Mullin's characters shift to the process of establishing and maintaining a civilization. Egocentric adult politicians, a sadistic guerrilla leader in a nearby town, and some spiffy strategies for creating power and safe places to live (STEM alert!) round out the believable state building. Although there are some losses, Alex and Darla's romance—as well as the fate of most of those they love—wraps up in a very satisfying conclusion. This involving narrative would be enriched by reading Ashfall (2011) and Ashen Winter (2012) first, but it can be enjoyed on its own. Grades 8-12. --Cindy Welch

## Review

"Survivors must rebuild society in the conclusion to the Ashfall trilogy [. . .] As the small community's population increases through new arrivals, everyone must learn not only trust, but how and when to forgive. The writing, even in transitory moments of peace, never lets readers forget that potential catastrophe lurks around every corner. A story about how hope is earned, as heart-pounding as it is heart-wrenching." —

**Kirkus Reviews, Starred Review**

"A very satisfying conclusion to the series."—**Booklist**

"Readers who enjoy dystopian novels will gravitate toward this story of a world set in the not-too-distant future, where danger lurks everywhere. There is plenty of action and bloodshed in this final book in the trilogy. Betrayal, revenge, and suspicion, however, finally give way to the power of hope and love."—**VOYA**

"*Sunrise*, the third book in what I consider the best YA/Teen series being published right now ... [is an] absolutely brilliant ending to this wonderful series. I am sorry that this is the last book but it provided many hours of gripping adventure and a wild, exciting ride." — Susan Wasson, Bookseller, Bookworks
