Popular mathematics writer and anthologist Martin Gardner has rumbled into his beard at least once about how unmemorable twentieth-century American poetry is. It doesn't rhyme, doesn't scan, has no music. William Carlos Williams will be completely forgotten before this century's out. Harrumph! Gardner might agree, however, that Robert Frost won't be forgotten. His work rhymes, scans, and is so musical that it is frequently set to music. This absorbing anthology attests to Frost's memorableness not just in splendid parodies (e.g., Kenneth Koch's "Mending Sump") and answering poems (e.g., Wendell Berry's "Stay Home") but also in echoes, allusions, and quotations, not to mention Frostian blank verse and quatrains, in virtually every poem. Frost said he had a lover's quarrel with the world, and many of these poets, including several who knew Frost, clearly have lover's quarrels with him (see Robert Cooperman's affectionate, outraged, embarrassed "Good-by and Keep Cold"). Joking, arguing, probing his mind and life (don't miss Mary Jo Salter's "Frost at Midnight"--or its other reference), these commemorations share as well as celebrate his indelibility. *Ray Olson*
