### **Pedagogy of Indignation (Series in Critical Narrative) By Paulo Freire**

This is the first English translation of the last book written by Paulo Freire. *Pedagogy of Indignation* delves ever deeper into the themes that concerned him throughout his life. The book begins with a series of three deeply moving reflective "pedagogical letters" to the reader about the role of education for one's development of self. He also speaks directly to the reader about the relationship to risk in one's life and he delves deeper than before into the daily life tensions between freedom and authority. Building on these interconnected themes, Freire sharpens our sense of the critical faculties of children and how a teacher may work with children to help them realize their potential intellectually and as human beings. Subsequent chapters explore these topics in relation to the wider social world: the social constitution of the self in the work of educators; critical citizenship; and the necessity of teaching "from a position" about the world that goes beyond literacy programs to include the legacy of colonialism in peoples' resistance movements today. The book's poignant interludes, written by Ana Maria Araujo Freire, reveal Paulo's thoughts about the content of this book as he was completing it during the last weeks and days of his life.

### Editorial Review

#### Review

Critical theory in education has too often lapsed into an intellectual posturing detached from real possibilities for transformation and thus failed to challenge neoliberal fatalism about how things are or need to be. Ever persuasive and impressive, Freire takes up the challenge and in the act shows us not just the possibility but the reality of a pedagogy of hope. --Jim Gee, Arizona State University
